Countersink Sharpening Cam Sets for CUTTERMASER

The Cuttermasters Countersink Grinding Cam Sets consists of cams, cam tensioner and cam follower. Each cam type is available with one or two ranges of lift (clearance).

The cams are available in four cam types zero/1-flute, two/four-flute (step drills), three/six flute, and four/eight flute. The cams and tensioner are designed to slide over the spindle tube of the CUTTERMASER CM-02A Air Bearing.

CM-CSB

CM-CSJ

9 Piece Journeyman Cam Set

- Zero and 1-Flute, two cams: .02" and .03" lift
- 2-Flute, three cams: .015, .04" and .065" lift
- 3-Flute, three cams: .025, .031" and .062" lift
- 4-Flute, one cam: .084" lift
- Cam follower and cam tensioner for CUTTEMAS TER CM-02A Air Spindle

Recommended Grinding Wheel for Countersinks:

We recommend a face wheel with enough area to cover the cutting lip of your countersink. Our CBN (or diamond for carbide) face wheels are perfect for countersinks and are available in 5" and 6" diameter. CM-5C180F Also see our Production Support Package CM-PS2 (six cams and face wheel)
